Your Strategic Email Ally, with Privacy as a plus

Europe is stepping away from Big Tech, and your customers are looking for email solutions that put them back in control.

Driven on a quest to create a sovereign email platform that functions flawlessly and also respects user privacy, we built Soverin. Our mission: to offer a privacy-first email solution without the cost and complexity of running your own infrastructure. Whether you prefer our fully hosted service or want to store data locally while leveraging our high-end mailflow expertise, we've got you covered. That's why Soverin is for partners like you: functional, scalable, low-touch, and designed to meet the growing demand for compliant, independent email.

Why this alliance works

Because every hero needs a loyal sidekick, we can be yours. You focus on what you do best: hosting. We focus on what we do best: steady, secure, scalable email. This is a strategic partnership that just makes sense. What you get:

Reduced cost of ownership:
Skip infrastructure headaches while offering your customers a premium email service.

Revenue-generating:
Turn email from a cost center to a profit driver with healthy margins that scale.
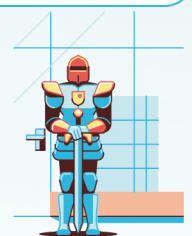

Smooth API integration:
For seamless provisioning and control panel automation.

Future-proof, managed migrations:
We've moved thousands of users without disruption, downtime, or deliverability issues.

Smart support tooling:
Armed with smart tooling and insights, your support desk can proactively prevent tickets from piling up.

Sovereign by default.
Future-proof by design.

Digital sovereignty isn't a nice-to-have. It's quickly becoming the standard. Whether it's NIS2, GDPR, or internal governance requirements, Soverin is built for the future of regulation in Europe. Our certifications and credentials speak volumes.

soverin.com

Built like a digital fortress.

Our commitment to sovereignty and security goes far beyond promises. It's built into every layer of our infrastructure. From certifications to servers to protocols, every technical decision reinforces our commitment to your success:

- **ISO 27001, 9001, and 14001 certified**: We don't cut corners on security, quality, or environmental standards
- **Hosted on our own servers in the Netherlands:** Full transparency with complete data sovereignty under EU law
- **All protocols handled seamlessly:** Built-in GDPR, DMARC, DKIM, SPF, DANE, TLSA, TLS, BIMI, and SRS compliance
- **No third-party dependencies:** You maintain complete control without external vulnerabilities or risks
- **No more digging in raw server logs:** Get insights about delivery statistics, spam scores, and failure reasons

Pricing that won't break your bank.

Our solution is designed to go beyond another email service. That's why we have created a comprehensive, cost-effective email ecosystem that will allow you to experience substantial savings compared to your current solution.

We've meticulously analyzed the total cost of ownership, and the results are significant. By transitioning to Soverin, you´ll benefit from reduced infrastructure expenses, streamlined management, and efficient support — all contributing to a healthier bottom line.
